Front view

Index	Item	Description
1	Computer display	The high-resolution, thin-film transistor (TFT) display provides clear and brilliant text and graphics.
		Use the power switch to turn on the computer. To turn off your computer, use the Start menu shutdown options.

2	Power switch	If you cannot turn off the computer by this method, press and hold the power switch for 2 seconds. If your computer stops responding, and you cannot turn it off, press and hold the power switch for 4 seconds or more. If the system is still not reset, remove the ac power adapter and the battery. The power button also can be programmed via the Power Manager program to shut down the computer or put it into sleep (standby) or hibernation mode.
3	Fingerprint reader	Some models have the fingerprint reader. The fingerprint authentication technology enables you to use your fingerprint to start the computer and enter the ThinkPad® Setup.
4	TrackPoint buttons	The keyboard contains the unique TrackPoint® pointing device. Pointing, selecting, and dragging are all part of a single process that you can perform without moving your fingers from typing position.
5	TrackPoint pointing stick	
17	Touch pad	Move your fingertip across the UltraNav® touch pad to move the pointer. The TrackPoint and touch pad buttons provide functions similar to those of a mouse and its buttons.
18	Touch pad buttons	
6	ThinkVantage® button	Press the ThinkVantage button to launch the SimpleTap program (for Windows® 7) or the ThinkVantage Productivity Center program (for Windows XP and Windows Vista®). Note: Depending on the date when your computer was manufactured, your computer might have the Lenovo ThinkVantage Toolbox program preinstalled instead of the SimpleTap program or the ThinkVantage Productivity Center program. You also can use the ThinkVantage button to interrupt the startup sequence of your computer and start the Rescue and Recovery® workspace.
7	System and power-status indicators	Your computer has the system status indicators and the power status indicators.
8	UltraConnect wireless antennas (left)	The built-in antennas for the wireless communication are located at the top left and the top right portions of your computer display.
13	UltraConnect wireless antennas (right)	
9	Built-in stereo speaker (right)	The built-in microphone captures sound and voice when it is used with an application program capable of handling audio.
12	Built-in stereo speaker (left)	
10	Integrated camera	Some models have the integrated camera. By using this camera, you can take pictures or hold a video conference.
11	ThinkLight	You can use your computer under less than perfect lighting conditions. To illuminate the keyboard, turn on the ThinkLight® by pressing Fn+PgUp. To turn it off, press Fn+ PgUp again.

14	Built-in stereo speaker (right)	The stereo speakers are built into your computer.
21	Built-in stereo speaker (right)	
15	Forward and Back keys	The Forward and Back keys on your keyboard near the cursor-control keys are used with your Internet browser, such as Internet Explorer®. They function like the forward and back arrows in the browser that move you back and forward to pages you have viewed in the order that you opened them.
16	*Bluetooth* antenna	If your computer comes with the Integrated *Bluetooth* features, the antenna is located under the right side of the palm rest.
19	Fn key	Use the Fn key to take advantage of ThinkPad® functions, such as turning on the ThinkLight. To use ThinkPad functions, press Fn + the required function key marked in blue.
20	CapsLock key indicator	The indicator of CapsLock is located on the CapsLock key.
22	Volume control buttons	The built-in volume buttons enable you to quickly adjust the volume or mute the sound from your computer.
